

# Conference Paper Title

1<sup>st</sup> Given Name Surname  
*dept. name of organization (of Aff.)*  
*name of organization (of Aff.)*  
City, Country  
email address or ORCID

**Abstract**—This document is a model and instructions for  $\text{\LaTeX}$  following the IEEE template. This and the `IEEEtran.cls` file define the components of your paper [title, text, heads, etc.]. **\*CRITICAL: Do Not Use Symbols, Special Characters, Footnotes, or Math in Paper Title or Abstract.**

**Index Terms**—component, formatting, style, styling, insert

## I. INTRODUCTION

This document is a model and instructions for  $\text{\LaTeX}$ . Please observe the page limit of **four pages**. Supplementary material (e.g., diagrams, tables, UI screenshots, etc.) included in the appendix will not count towards the page limit.

## II. AI USAGE POLICY

You are permitted to use AI technology as aid for your research and writing.

You are required to report all use of AI technology, i.e., which tools you used, for which purpose and how. This includes:

- providing all queries/prompts/dialogs you used and their outputs in a separate document
- marking all directly copied content with quotation marks and reference to the AI tool
- marking all paraphrased or adopted content with a reference to the AI tool

Any use beyond what we described above will count as using unallowed materials and lead to a fail grade. Further, we will use the information you provide to judge how much of the paper was written by you and how much by AI. If we believe that substantial parts of the paper were written by AI, this will affect your grade negatively.

This policy is designed to teach you the responsible use of such technology. You may use it, but you have to assume full responsibility for anything bad that comes out as a result and be transparent about your usage.

**AI usage reports must be submitted as a separate PDF document together with the main paper.**

## REFERENCE GUIDELINES

Please number citations consecutively within brackets [1]. The sentence punctuation follows the bracket [2]. Refer simply to the reference number, as in [3]—do not use “Ref. [3]” or “reference [3]” except at the beginning of a sentence: “Reference [3] was the first ...”

Number footnotes separately in superscripts. Place the actual footnote at the bottom of the column in which it was cited. Do not put footnotes in the abstract or reference list. Use letters for table footnotes.

Unless there are six authors or more give all authors’ names; do not use “et al.”. Papers that have not been published, even if they have been submitted for publication, should be cited as “unpublished” [4]. Papers that have been accepted for publication should be cited as “in press” [5]. Capitalize only the first word in a paper title, except for proper nouns and element symbols.

For papers published in translation journals, please give the English citation first, followed by the original foreign-language citation [6].
